PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6+ years building scalable, high-performance web applications with **React.js, TypeScript and JavaScript**. Designed and built the frontend of an automated costing platform that **cut quotation time from ~3 days to under 5 minutes**, earning Best Performer of the Year. Strong in **frontend architecture, design systems, state management (Redux Toolkit), real-time UIs (WebSockets) and REST API integration**, with a track record of fast, reliable releases: **initial load under 1.8s, Lighthouse 90+ and a post-release defect rate under 2%**. Works closely with product, backend and business stakeholders, and uses AI-assisted development (Cursor, Claude Code, ChatGPT Codex) to deliver faster. **Based in Abu Dhabi and available for in-person interviews.**

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, React Hooks, Redux Toolkit, Context API, React Router, Remix, Formik, Yup
UI & Design Systems: Design Systems, Component Libraries, Storybook, Chakra UI, Fluent UI, Tailwind CSS, Responsive Design, UI/UX Collaboration
Architecture & Performance: Frontend Architecture, Single Page Applications (SPA), Core Web Vitals, Code Splitting, Lazy Loading, Rendering Optimisation, Progressive Web Apps (PWA)
APIs & Real-Time: RESTful APIs, WebSockets, Axios, Third-Party Integrations, Frappe/ERPNext
Visualisation: Three.js, Interactive 3D/CAD Visualisation, Data-Intensive Dashboards
Testing: Jest, React Testing Library, Cypress
Monitoring & Analytics: Datadog RUM, Sentry, Google Analytics, Google Tag Manager
Tooling & DevOps: Vite, Webpack, Git, GitHub, CI/CD Pipelines
Microsoft Ecosystem: Microsoft Teams Tab Apps, Teams JavaScript SDK (TeamsJS)
AI-Assisted Development: Cursor, Claude Code, ChatGPT Codex
Methodologies: Agile, Scrum, SAFe 5, Clean Code

EXPERIENCE

Karkhana.io | Bengaluru, India *Apr 2025 – Jun 2026*
Senior Full Stack Developer (Frontend Engineering)

- **Owned frontend architecture** for the Costing Engine, a large-scale React and TypeScript SPA with Three.js and Redux Toolkit, keeping it responsive as model complexity grew **10× in a year**.
- **Built real-time features over WebSockets**, pushing live updates to the UI in real time.
- **Scaled the company-wide React design system** (Chakra UI, Storybook, Vite) across **4+ portals**, cutting cross-team UI development time by **~40%**.
- **Set frontend performance standards** (Core Web Vitals, code splitting, lazy loading), holding initial load **under 1.8s** and Lighthouse scores **above 90**.
- **Delivered 3–5 production features per quarter** end to end, from design and REST API integration through testing and release, with a **post-release defect rate under 2%**.

- **Worked with product, backend and business stakeholders** to turn complex workflows into clear technical requirements and shippable features.
- **Presented the product live at IMTEX 2025**, explaining technical capabilities to industry and non-technical audiences.

Karkhana.io | Frontend Software Developer *Jul 2022 – Mar 2025*

- **Designed and solely built the frontend** of the Automated Costing Engine (React, TypeScript, Redux, Three.js, Chakra UI), cutting quotation cycles from **~3 days to under 5 minutes**.
- **Shipped 4+ production portals in 12 months** with React, Remix and TypeScript, driving **30% higher user engagement** and onboarding **200+ manufacturer accounts**.
- **Integrated 60+ REST API endpoints** using TypeScript and Axios, reducing QA-reported integration defects by **~50%** and supporting weekly releases.
- **Designed the Redux Toolkit state architecture** adopted across 4+ portals, reducing state-related production defects by **~60%**.
- **Built interactive Three.js 3D/CAD visualisation** for uploaded manufacturing models, including rendering, selection and engineering workflows in the browser.
- **Led PWA enablement** with service workers and caching, improving reliability on mobile and low-bandwidth networks.

GlobalLogic | Noida, India *Oct 2019 – Jan 2022*

Software Engineer (promoted from Trainee)

- **Built 20+ reusable React components** for an enterprise CSR dashboard, standardising UI across 3 product squads and cutting feature development time by **~25%**.
- **Modernised legacy VB6/VB.NET modules** through incremental migration to React, reducing recurring production issues by **~30%** with no business disruption.
- **Delivered 3+ React/Node.js prototypes**, shortening stakeholder feedback cycles from **2 weeks to under 4 days** and supporting 2 enterprise deals.
- **Coordinated delivery for a 12-person Agile squad**, raising on-time releases from **~70% to 95%+** over 8 sprints.

EDUCATION

Government Engineering College Wayanad, Kerala *Aug 2015 – Jul 2019*

B.Tech in Computer Science & Engineering | APJ Abdul Kalam Kerala Technological University

CERTIFICATIONS & AWARDS

- **Certified SAFe 5 Practitioner** — Scaled Agile Framework
- **Karkhana.io Best Performer of the Year** — Costing Engine delivery & component library rollout
- **GlobalLogic ACE of the Month** — Delivery leadership
- **GlobalLogic Spotlight of the Month** — Reusable frontend architecture
- **GlobalLogic ML Hackathon Champion** — 1st place
